WAVE DRAPE HOOK SYSTEM

Wave Drape carriers use a unique **hook system** as opposed to the traditional snaps.

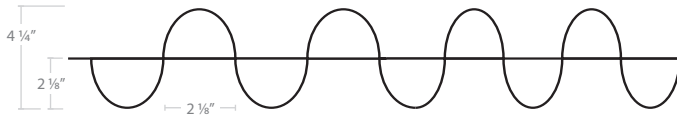

- Wave Hooks allow for more flexibility and ease of use.
- Multiple fullness: 1.8 to 2.7 fullness.
- Easy installation, no force required to place hooks.
- Change hook placements quickly after drape is installed.
- Drapes can be washed even with hooks are installed.

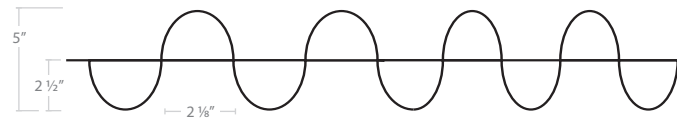

WAVE DRAPE ADVANTAGE™

i Easily compare using our online wave calculator for any rod length. Below we give an example using a 100" rod length comparing 10 versus 12 pocket and 100% versus 80% stacking.

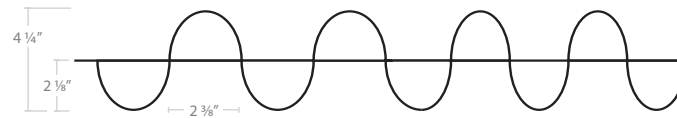

WAVE TAPE 100% STANDARD STACKING CARRIERS 50 POCKETS 10 STACK 18 3/4" TAPE 217 1/2" FULLNESS 2.17

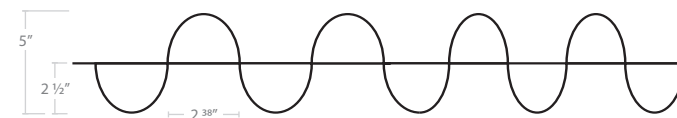

WAVE TAPE 100% STANDARD STACKING CARRIERS 50 POCKETS 12 STACK 18 3/4" TAPE 261 2" FULLNESS 2.61

WAVE TAPE 80% REDUCED STACKING CARRIERS 44 POCKETS 10 STACK 16 1/2" TAPE 191 3/8" FULLNESS 1.91

WAVE TAPE 80% REDUCED STACKING CARRIERS 44 POCKETS 12 STACK 16 1/2" TAPE 229 3/8" FULLNESS 2.3

Retail Price \$ 4.00/yd

Grey shaded areas with ***Italic numbers*** identify sizes that will not have an even amount of carriers per side on a center opening drape. Note that you will split the total amount of carriers shown on the chart for a center draw, so that half will be used on each side of the master carrier. In these situations, either move up or down on the chart to the next carrier quantity based on exact coverage calculation. Example: A 40" track would require a total of 22 carriers (11 carriers per side on a center draw). It is best to move down to 39" with 20 carriers and coverage of 39.9". For a 44" track it is best to move up to 45" with 24 carriers and exact coverage of 48.3".

Retail Price is based on the maximum amount of tape to keep the chart simple. You will be billed on the actual amount required.

N/A denotes that WAVE DRAPE™ does not recommend using listed carriers for these sizes. WAVE DRAPE™ will not warranty drapery rod product using carriers listed in the N/A areas.
